## PROGRAM INTRODUCTION

---

Welcome to the world of Splunk Education! From free courses to paid subscriptions, from a few minutes to a few days, from your first day to your first deployment, we are here to help you get the most out of Splunk—the **Data to Everything** platform.

### *Where do I start?*

Great question! Here at Splunk, our Data-to-Everything Platform includes everything you need to ensure your digital initiatives succeed... but how? Leverage our Splunk Education offerings to empower your people to predict, identify, and solve problems in real time. We can teach you to answer your own questions across business, IT, DevOps and security functions with world-class investigative capabilities, intuitive visualizations, and seamless collaboration.

Splunk Education offers focused training programs that enable you to get started quickly and stay relevant. We greatly enhance the value that Splunk can bring to you and your company. Experience has shown that attending Splunk education can have an immediate and profound impact on your staff and your organization. **Our goal is to deliver the maximum amount of practical information in the shortest amount of time to keep your downtime or out-of-office time to a minimum.** We focus on the tasks required to implement, manage, develop and use Splunk, with the goal of helping you become self-sufficient and productive as quickly as possible.

Remember—an investment in education is an investment in success. Past participants in Splunk Education courses (and **certifications**) **report higher earnings and more promotions** than their industry peers. Organizations that make use of Splunk Education are **three times** more likely to accomplish their Splunk-driven business objectives. Ready to get started?

Most learning paths start with single-subject courses. View this **guide** to get started!

## DELIVERY METHODS

---

*Splunk Education courses are offered in the following delivery methods:*

- **Self-paced **FREE** courses**  
Attend training any time and from any location. These self-paced courses include free eLearning, use-case videos, walkthroughs and more! Please see [here](#) for a comprehensive list of resources.
- **Self-paced eLearning**  
Attend training any time and from any location. These self-paced courses include videos and hands-on labs.
- **Instructor-led virtual (public)**  
These **public** courses are open to all customers and partners and are delivered by a live instructor via WebEx that can be attended from any location. We understand how adults learn and have taken virtual classes to the next level. We ensure that maximum concentration is kept during the 3-4.5 hour/day classes with engaging instructors, and comprehensive hands-on labs.
- **Instructor-led classroom (public)**  
With classrooms across the globe and a new state-of-the-art purpose-built classroom at our headquarters in San Francisco, we offer in-person training. These classes take you away from your daily office routine and immerse you into the world of Splunk. We create the ideal environment to get fast-tracked knowledge of how to get the best from Splunk.
- **Instructor-led dedicated virtual (private)**  
If you have a team to train, you can have a dedicated virtual class delivered by a live instructor via WebEx to just your employees. Students can attend from any location, but with the added ability to be able to virtually converse with colleagues and the instructor and focus the class on the needs of your organization.
- **Instructor-led dedicated onsite (private)**  
If you have a team to train, you can bring a Splunk instructor to your site enabling lively discussion amongst the attendees related to your company's specific use of Splunk.

## COURSE REGISTRATION

---

To register for a Splunk Education course, all students must first create a [Splunk.com](https://splunk.com) account. Any issues encountered in creating an account **or** logging into an account should be directed to [Splunk Support](#) (we recommend calling your regional helpline for the quickest assistance).

There are several ways to pay/register for a course (instructions can also be found [here](#)):

### ENROLLING USING EDU CREDITS/PASSKEY

1. Use the [Catalog](#) to browse by course or use the [Schedule](#) page to browse the schedule for Instructor-Led-Training.
2. For Instructor-on-Demand classes, click the "Register" button. For live instructor-led classes (virtual or classroom) click the dates in the time-zone/location that best suits your schedule.
3. Please review the Terms and Conditions and check the box. Click "Register". You can use the "Continue Shopping" link to add more classes to your cart.
4. Review the details on the page and, when ready, click "Checkout". You will be prompted to login. If you do not have a Splunk.com account, you can create one from the next screen.
5. Complete any missing fields.
6. Select the Training Passkey payment type and enter your passkey in that field. If you do not know your passkey, please contact your internal coordinator.
7. Agree to the Terms and Conditions (yes—again!).
8. Click "Confirm Order". If your company has set the passkey to auto-approve your registration will be confirmed immediately. Otherwise, the owner of your credits account will receive a notification requesting approval. Your registration will be tentative until the use of the credits is approved.

## COURSE REGISTRATION (continued)

---

### ENROLLING WITH A CREDIT CARD

1. Use the [Catalog](#) to browse by course or use the [Classes](#) page to browse the schedule for Instructor-Led Training.
2. For Instructor-on-Demand classes, click the "Register" button. For live instructor-led classes (virtual or classroom) click the dates in the time-zone/location that best suits your schedule.
3. Be sure to read the Terms and Conditions and check the box. Click "Register". You can use the "Continue Shopping" link to add more classes to your cart.
4. Review the details on the page and, when ready, click "Checkout". You will be prompted to login. If you do not have a Splunk.com account, you can create one from the next screen.
5. Complete any missing fields.
6. Select the "Credit Card" Payment Type and enter your card details
7. Agree to the Terms and Conditions, once more for good measure!
8. Click "Confirm Order". Your registration will automatically be confirmed!

### ENROLLING WITH YOUR COMPANY'S BASIC ELEARNING SUBSCRIPTION

1. Use the [Splunk Basic eLearning Subscription](#) page for registration instructions.
2. Note that subscription pricing is not adjusted until you have added a course to your cart and are logged in. Only eLearning courses are included in subscription packages.

## ACCESSING YOUR COURSE

---

Once you've registered for a course, you will receive a confirmation email at the email address you used to create your Splunk Education account with specific instructions. Please carefully review these instructions, as they may include a system compatibility check which should be completed **prior to the start date** of the course. **This is especially true for instructor-led courses.**

When you're ready to access your course, visit your [training profile](#). Courses you have registered for will be displayed at the bottom of the page. If you are having problems finding your courses, click the **My Learning** tab, and use the **Filter Results** drop-down to filter courses by status. Once you have found the course, click the **View Details** button for additional instructions.

Similarly, access eLearning courses as described above **or directly from the confirmation email you received**. If accessing from your [training profile](#), click the **Resume Course/Pathway** button to launch it.

Before launching a course, we suggest you use the test link at <https://splk.it/2TKvg6K> to verify that it will work with your system or network.

## CANDIDATE SUPPORT/FAQ

---

Below are some of the most frequently-asked questions fielded by our Education Ops Team. Please also refer to our [Program Guide](#) and [Splunk Education FAQ](#) for the most up-to-date FAQ and information. Any questions not answered here can be directed to [Education\\_AMER@splunk.com](mailto:Education_AMER@splunk.com) (regardless of region, this is our primary mailbox for assistance).

**Q: How much do courses cost?**

**A:** Please see the [Learning Paths](#) and [Appendix A](#) for pricing and links to course descriptions and durations. This information is also available via our [pricing list](#).

**Q: What is the difference between a learning path and a certification track?**

**A:** Learning paths are designed to give students a comprehensive list of courses which includes all the information they need to become a subject matter expert. Course prerequisites are detailed on each of the course descriptions. See the [Learning Paths](#) and [Appendix A](#) for more information. Splunk Certification develops exams and issues digital badges based on varying levels of knowledge and competency with Splunk products. Most certifications do not require course completion, but we do offer recommended coursework to candidates who do not have on-the-job experience or knowledge. Highly technical tracks do include required prerequisite courses which must be completed by all candidates, regardless of experience. For more information, please refer to our [Splunk Certification Candidate Handbook](#).

**Q: I completed a course. How do I access my certificate of completion?**

**A:** Please login [here](#) to access your completion certificates.

**Q: I completed an eLearning and want to practice the labs again. Can I regain access?**

**A:** Each eLearning with Labs registration comes with access to labs up to three times. Each lab access lasts up to four hours. You can access the labs by launching the course from [your profile](#). Additional lab time cannot be granted. Please note, to receive a certificate of completion for the eLearning course, you need to complete the course and all labs within one of the four hour lab sessions.

**Q: I want to use my course materials to study for a certification exam, but no longer have them. Where can I download them?**

**A:** Please send a request to [Education\\_AMER@splunk.com](mailto:Education_AMER@splunk.com) for assistance.

## CANDIDATE SUPPORT/FAQ (continued)

---

**Q: When do EDU credits expire? Is there a way to get an extension?**

**A:** EDU credits expire 12 months from the date of purchase. This means that the **courses must begin prior to the expiration date**. Splunk has released a training credit extension SKU (EDU-UNIT-EXT) which enables customers to extend eligible training credits for an additional 12 months for only \$2,500. This extension **cannot** be purchased with existing credits, cannot be used for credits that were previously extended for any reason and must be purchased before the expiration date.

**Q: I have existing EDU credits. Can I use them for certification exam registration?**

**A:** Yes! One (1) EDU credit can be used to purchase a five-pack of exam registration vouchers. Please send a request to [certification@splunk.com](mailto:certification@splunk.com) for assistance. Partner credits which were purchased at a discounted price of \$250/credit can be used, as well, with (2) EDU credits equalling a five-pack of exam registration vouchers.

**Q: In what languages are instructor-led courses available? In which time zones?**

**A:** Our instructor-led courses are currently available for delivery in English, Spanish, French, German, Portuguese, Japanese and Mandarin. We also have [Authorized Learning Partners \(ALPs\)](#) who can deliver in Italian, Spanish, Portuguese, German, Polish, Japanese, Korean, and Chinese. Translators can be hired, as needed (at the expense of the customer). Courses are globally available in several time zones. Please note: the location for virtual courses indicates the time zone for delivery.
